Cruising World 1996-01

Building Jammin F Michael Worley 2020-03-07 I have seen dark days, but October 10, 2018, is the darkest. That was the day Panama City, Fl saw the monster. It was the day that Hurricane Micheal destroyed anything and everything in its path. The Category 5 Hurricane reached 170 mph winds that turned businesses upside down and pummeled the boating community. The strong winds destroyed my home of 30 years. That home was my hand-built boat and my pride and joy, Jammin. I built a boat to achieve my dream of sailing around the World with my beautiful daughter, Claire. Hurricane Micheal robbed me of that dream. 18 years of building my baby was gone within a minute as the monster storm devoured it. I questioned a lot after the storm. My baby was dead, but my dream is alive. As I write this, I am sitting on my new baby, a Tayana37. Lloyds of London thought she was totaled and put it up to sell. Well, sometimes ignorance is bliss. After examining the boat, I knew she was sound. However, she needed a lot of cosmetic work and restoration. No one would have thought to examine this dead baby, but after building Jammin, I was up for the challenge. I admit it, I am a thief because I stole this boat! mean, I paid for it, but it was a steal because of my knowledge and skill set of restoration because...I knew I could bring her back In this book, you will learn about my 18-year journey that led to my home of 30 years. "Building Jammin" is about all the lessons learned, all the mistakes made, and all the right decisions too. The saying is you gain experience by making mistakes. If that is true, then I am the foremost expert that is going to save you from making those mistakes!! This book will save you thousands of dollars, countless hours, and will serve as your guide in building or restoring a boat. Jammin was a thing of beauty built from 40 years of racing and my

engineering background, but now I have successfully restored Tayana 37. SHE is going to sail me around the World! If you want to do the same, then shake off your doubt, and cast your sails by purchasing this book. As someone that has been around boats for 50 plus years and was the Former New and Used boat Manager of Treasure Island Marina. I KNOW BOATS! It is that simple! So...start here and end up in the WATER with the boat of your dreams! Fair Winds Capt. Mike Worley,  
Chapman Piloting & Seamanship Elbert S. Maloney 2006 An updated reference for power and sail boaters surveys the latest developments in safety systems, marine electronics, radar, and communications, and federal laws and regulations, and includes information on tides, currents, weather, and navigation.

Building Jammin Fay Worley 2020-02-28 "BUILDING JAMMIN" with 130 FULL-COLOR PICTURES! 60 years on the water building, rebuilding and restoring boats. This book was written by a man that lives eats and breaths boats. This is the book written for anyone that is considering building a boat of any kind or restoring one. It covers all the building methods and materials. Comparing one each method against the other to show you the good and not so good points about each method. Then it goes into other ways of becoming a boat owner! Buying used, through an Estate Sale, Hurricane Boats, unfinished projects, and the advantages and disadvantages of each. It shows you what options are available to you. I wrote the book that I wish had been available before I started on Jammin. She was a 42 ft Pilot House Cutter that was built in my spare time over 18 years. Then I lived on her for 30 before Hurricane Micheal destroyed her. During this time I was the New and Used Boat Manager for Treasure Island Marina. My job was to ensure that every boat in inventory did what it was supposed to do. All used boats were systematically gone through to ensure that all systems worked and that they were seaworthy. A job I was born to do. Then on October 10, 2018, Michael blew into town and destroyed my home. Not even I could restore her. I was able to find another boat that Lloyds of London said was totaled, a Tayana 37. If you know boats, this is a sailer's boat! She was designed by Bob Perry and is ranked at the 7th best all-time cruising boat in the world! Checking her out, everything was there, the

hull was sound and I realized she was rebuildable. For me to do this it would take some time and all my talents to rebuild her. On deck, she was in serious trouble. Yet it was just fiberglass and woodworking. The parts that were broken beyond compare were replaceable! So she was purchased through a broker and I have spent the last 12 months restoring her. All that is also covered in Building Jammin! Yes, it has been one hell of a journey. In this book, I take you through the entire process of building with pictures to help guide you. You may decide after reading this book that boat building is not for you and chose to buy one instead. But here's the thing it's nice to know your options! Personally, I love this stuff. Building boats is a kick in the pants for me. Watching something you have crafted with your own hands come together is amazing. When you take her out for her first cruise, that is a feeling you will never forget. Along the way, I have learned a lot, screwed up and lot but then I've made a lot of great choices. You can watch Jammin come together as I explain what I am doing and why. You need to know where my head was at, at each phase of construction. Methods and materials are also discussed. You can see pictures of each phase of construction. In the back is a list of suppliers for anything you could possibly want in building a boat. Each company has experts that are there to help you and answer any questions you may have. From 6 ft prams to as big as your dreams may take you this book will answer your questions. Most suppliers offer plans to assist in making up your mind of which boat to build. The frosting on the cake is it will save you thousands of dollars and tons of time. There are ways to build any boat, faster, stronger and cheaper! All that is covered in Building Jammin. There is also a black and white version of this book and even an Ebook! Fair Winds Capt Mike
