Memory Rose into Threshold Speech Paul Celan 2020-11-24 Memory Rose into Threshold Speech gathers the poet Paul Celan's first four books, written between 1952 and 1963, which established his reputation as the major post-World War II German-language poet. Celan, a Bukovinian Jew who lived through the Holocaust, created work that displays both great lyric power and an uncanny ability to pinpoint totalitarian cultural and political tendencies. His quest, however, is not only reflective: there is in Celan's writing a profound need and desire to create a new, inhabitable world and a new language for it. In Memory Rose into Threshold Speech, Celan's reader witnesses his poetry, which starts lush with surrealistic imagery, become gradually pared down; its syntax tightens and his trademark neologisms and word formations increase toward a polysemic language of great accuracy that tries, in the poet's own words, "to measure the area of the given and the possible." Translated by the prize-winning poet and translator Pierre Joris, this bilingual edition follows the 2014 publication of *Breathturn into Timestead*, Celan's collected later poetry. All nine volumes of Celan's poetry are now available in Joris's carefully crafted translations, accompanied here by a new introduction and extensive commentary. The four volumes in this edition show the flowering of one of the major literary figures of the last century. This volume collects Celan's first four books: *Mohn und Gedächtnis* (Poppy and Memory), *Von Schwelle zu Schwelle* (Threshold to Threshold), *Sprachgitter* (Speechgrille), and *Die Niemandsrose* (NoOnesRose).

The Last Book in the Universe Rodman Philbrick 2013-03-01 This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It's the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.

Prophecy, Fate and Memory in the Early Medieval Celtic World Professor Jonathan Wooding 2020-03-02 *Prophecy, Fate and Memory in the Early and Medieval Celtic World* brings together a collection of studies that closely explore aspects of culture and history of Celtic-speaking nations. Non-narrative sources and cross-disciplinary approaches shed new light on traditional questions concerning commemoration, sources of political authority, and the nature of religious identity. Leading scholars and early-career researchers bring to bear hermeneutics from studies of religion and literary criticism alongside more traditional philological and historical methodologies. All the studies in this book bring to their particular tasks an acknowledgement of the importance of religion in the worldview of antiquity and the Middle Ages. Their approaches reflect a critical turn in Celtic studies that has proved immensely productive across the last two decades.

Remembering Biblical Figures in the Late Persian and Early Hellenistic Periods Diana V. Edelman 2013-08-29 The book examines the range of associations and symbolic values evoked by twenty-one biblical figures when viewed across the range of biblical books that eventually formed an authoritative collection for the emergent Jewish community. The figures are grouped under ancestors and founders, kings, female characters, and prophets. The introduction and the concluding essay deal more specifically with theoretical and methodological issues that arise from analysing the Hebrew Bible in the framework of memory studies. By viewing these biblical figures as sites of group memory for members of the ancient religious community of Israel, one better understands how the stories contained in the texts perpetuate selected memories deemed central for on-going group identity and values and how the characters involved in those memories create sometimes limited and sometimes complex networks of associations that aid in creating and reinforcing shared memories.

Memory Lands Christine M. DeLucia 2018-01-09 Noted historian Christine DeLucia offers a major reconsideration of the violent seventeenth-century conflict in northeastern America known as King Philip's War, providing an alternative to Pilgrim-centric narratives that have conventionally dominated the histories of colonial New England. DeLucia grounds her study of one of the most devastating conflicts between Native Americans and European settlers in early America in five specific places that were directly affected by the crisis, spanning the Northeast as well as the Atlantic world. She examines the war's effects on the everyday lives and collective mentalities of the region's diverse Native and Euro-American communities over the course of several centuries, focusing on persistent struggles over land and water, sovereignty, resistance, cultural memory, and intercultural interactions. An enlightening work that draws from oral traditions, archival traces, material and visual culture, archaeology, literature, and environmental studies, this study reassesses the nature and enduring legacies of a watershed historical event.

Ever since a gang murdered his wife, Matthew Coulter cannot see a woman being mistreated without vowing to rescue her—and exacting vengeance against the evildoers. So when he spots Eden with the ruffians, Matthew takes fierce, focused action to save her. As Eden and Matthew run for their lives, she recognizes a kind heart beneath Matthew's rugged exterior. But she wonders which will win out: his obsession with revenge—or their growing passion for each other.

Arctic Archives Susi K. Frank 2019-10-31 This pioneering volume explores the Arctic as an important and highly endangered archive of knowledge about natural as well as human history of the anthropocene. Focusing on the Arctic as an archive means to investigate it not only as a place of human history and memory - of Arctic exploring, 'conquering' and colonizing -, but to take into account also the specific environmental conditions of the circumpolar region: ice and permafrost. These have allowed a huge natural archive to emerge, offering rich sources for natural scientists and historians alike. Examining the debate on the notion of ('natural') archive, the cultural semantics and historicity of the meaning of concepts like 'warm', 'cold', 'freezing' and 'melting' as well as various works of literature, art and science on Arctic topics, this volume brings together literary scholars, historians of knowledge and philosophy, art historians, media theorists and archivologists.

At the Entrance to the Garden of Eden Yossi K. Halevi 2002-06-18 A brilliantly observed memoir of an unprecedented and remarkable spiritual journey. While religion has fuelled the often violent conflict plaguing the Holy Land, Yossi Klein Halevi wondered whether it could be a source of unity as well. To find the answer, this religious Israeli Jew began a two-year exploration to discover a common language with his Christian and Muslim neighbours. He followed their holiday cycles, befriended Christian monastics and Islamic mystics, and joined them in prayer in monasteries and mosques in Israel, the West Bank, and Gaza. At the Entrance to the Garden of Eden traces that remarkable spiritual journey. Halevi candidly reveals how he fought to reconcile his own fears and anger as a Jew to relate to Christians and Muslims as fellow spiritual seekers. He chronicles the difficulty of overcoming multiple obstacles—eological, political, historical, and psychological—at separate believers of the three monotheistic faiths. And he introduces a diverse range of people attempting to reconcile the dichotomous heart of this sacred place—struggle central to Israel, but which resonates for us all.

Possessed by Memory Harold Bloom 2020-03-11 In this inward journey from childhood to ninety, Bloom argues with nobody but Bloom, interested only in the influence of the mind upon itself when it absorbs the highest and most enduring literature. He offers more than eighty meditations on poems and prose that have haunted him since childhood and which he has possessed by memory- from the Psalms and Ecclesiastes to Shakespeare and Dr. Johnson; Spenser and Milton to Wordsworth and Keats; Whitman and Browning to Joyce and Proust; Tolstoy and Yeats to Delmore Schwartz and Amy Clampitt; Blake to Wallace Stevens-and so much more. And though he has written before about some of these authors, these exegeses, written in the winter of his life, are movingly informed by "the freshness of last things." He writes- "One of my concerns throughout *Possessed by Memory* is with the beloved dead. Most of my good friends in my generation have departed. Their voices are still in my ears. I find that they are woven into what I read. I listen not only for their voices but also for the voice I heard before the world was made. My other concern is religious, in the widest sense. For me poetry and spirituality fuse as a single entity. All my long life I have sought to isolate poetic knowledge. This also involves a knowledge of God and gods. I see imaginative literature as a kind of theurgy in which the divine is summoned, maintained, and augmented." As Bloom writes movingly- "One of my concerns throughout *Possessed by Memory* is with the beloved dead. Most of my good friends in my generation have departed. Their voices are still in my ears. I find- that they are woven into what I read. I listen not only for their voices but also for the voice I heard before the world was made. My other concern is religious, in the widest sense. Promised Lands David M. Wrobel 2002 Whether seen as a land of opportunity or as paradise lost, the American West took shape in the nation's imagination with the help of those

who wrote about it; but two groups who did much to shape that perception are often overlooked today. Promoters trying to lure settlers and investors to the West insisted that the frontier had already been tamed—that the only frontiers remaining were those of opportunity. Through posters, pamphlets, newspaper articles, and other printed pieces, these boosters literally imagined places into existence by depicting backwater areas as settled, culturally developed regions where newcomers would find none of the hardships associated with frontier life. Quick on their heels, some of the West's original settlers had begun publishing their reminiscences in books and periodicals and banding together in pioneer societies to sustain their conception of frontier heritage. Their selective memory focused on the savage wilderness they had tamed, exaggerating the past every bit as much as promoters exaggerated the present. Although they are generally seen today as unscrupulous charlatans and tellers of tall tales, David Wrobel reveals that these promoters and reminiscers were more significant than their detractors have suggested. By exploring the vast literature produced by these individuals from the end of the Civil War through the 1920s, he clarifies the pivotal impact of their works on our vision of both the historic and mythic West. In examining their role in forging both sense of place within the West and the nation's sense of the West as a place, Wrobel shows that these works were vital to the process of identity formation among westerners themselves and to the construction of a "West" in the national imagination. Wrobel also sheds light on the often elitist, sometimes racist legacies of both groups through their characterizations of Native Americans, African Americans, Mexican Americans, and Asian Americans. In the era Wrobel examines, promoters painted the future of each western place as if it were already present, while the old-timers preserved the past as if it were still present. But, as he also demonstrates, that West has not really changed much: promoters still tout its promise, while old-timers still try to preserve their selective memories. Even relatively recent western residents still tap into the region's mythic pioneer heritage as they form their attachments to place. *Promised Lands* shows us that the West may well move into the twenty-first century, but our images of it are forever rooted in the nineteenth.

Alzheimer's Disease in Contemporary U.S. Fiction Cristina Garrigós 2021-07-29 This volume seeks to bring readers to a deeper understanding of contemporary cultural and social configurations of Alzheimer's disease by analyzing 21st-century U.S. novels in which the disease plays a key narrative role. Via analysis of selected works, Garrigós considers how the erasure of memory in a person with Alzheimer's affects our idea of the identity of that person and their sense of belonging to a group. Starting out from three different types of memory (individual, social and cultural), the study focuses on the narrative strategies that authors use to configure how the disease is perceived and represented. This study is significant not only because of what the texts reveal about those with Alzheimer's, but also for what they say about us - about the authors and readers who are producing and consuming these texts, about how we see this disease, and what our attitudes to it say about contemporary U.S. society.

The Future Inheritance of Land in the Pauline Epistles Miguel G. Echevarria Jr. 2019-01-25 The Apostle Paul's vision of eternity is centered on the inheritance theme. Although Paul rarely unpacks this concept, he employs the inheritance in a manner that encompasses the hope of a renewed cosmos promised to Abraham and his descendants. Thus, the apostle does not redefine a theme grounded in the Old Testament and Second Temple literature—as if it now referred to heaven or some other spiritualized existence. He expects what every pious Jew expected—the tangible fulfillment of the promise, when at last God's people will dwell in a land where they will experience rest under the rule of Messiah. What Paul clarifies is that those who are "in Christ" are the beneficiaries of the inheritance. Although believers do not currently possess what has been promised to them, they have the hope that the Spirit will lead them on a new exodus through the wilderness of the present sinful age until they inherit the coming world.

Land of Eden William H. Wesley 2008 About the Author: William Henry Wesley III, my father, is generally a quiet man, so some may think at first he's shy or timid. But don't be fooled by the silence! When he chooses to speak, his knowledge, wisdom and quirky sense of humor shine brightly into this world of the mundane. He's one of those people one can tell knows far more than he ever lets on. I grew up listening to my father's tales of his childhood at Eden. In my mind Eden was a place of magic and wonder, almost like a fairytale land. My father was a great storyteller and I loved listening to his same old stories over and over until now I know them all by heart. I am thrilled that he wrote this book; now the whole world can read these stories I know and love. This book is but a fraction of the stories from his past. Here he tried to focus on Eden, but there are many more tales and adventures my father could share from all around the Florida panhandle and beyond. I hope that you, the reader, will enjoy this book as much as I enjoyed sitting in my dad's lap as a little girl, listening with delight to my daddy's yarns of Eden. Melinda Wesley Hinton

Sociological Thought Nahla Abdo 1998-10-28 *Sociological Thought: Beyond Eurocentric Theory* is designed to provide students of sociology with an alternative vision of social theory. In an exciting and original introduction to the book, Abdo provides an innovative critique of the Eurocentric and male-oriented nature of conventional sociological textbooks, and provides us with a new approach to understanding the field. The horizons of social theory are expanded by the inclusion of a chapter by Rosa Luxemburg and a chapter by the fourteenth century Arab/North African scholar Ibn Khaldun.

Memory and the City in Ancient Israel Diana V. Edelman 2014-10-31 Ancient cities served as the actual, worldly landscape populated by "material" sites of memory. Some of these sites were personal and others were directly and intentionally involved in the shaping of a collective social memory, such as palaces, temples, inscriptions, walls, and gates. Many cities were also sites of social memory in a very different way. Like Babylon, Nineveh, or Jerusalem, they served as ciphers that activated and communicated various mnemonic worlds as they integrated multiple images, remembered events, and provided a variety of meanings in diverse ancient communities. *Memory and the City in Ancient Israel* contributes to the study of social memory in ancient Israel in the late Persian and early Hellenistic periods by exploring "the city," both urban spaces and urban centers. It opens with a study that compares basic conceptualizing tendencies of cities in Mesopotamia with their counterparts in ancient Israel. Its essays then explore memories of gates, domestic spaces, threshing floors, palaces, city gardens and parks, natural and "domesticated" water in urban settings, cisterns, and wells. Finally, the studies turn to particular cities of memory in ancient Israel: Jerusalem, Samaria, Shechem, Mizpah, Tyre, Nineveh, and Babylon. The volume, which emerged from meetings of the European Association of Biblical Studies, includes the work of Stéphanie Anthonioz, Yairah Amit, Ehud Ben Zvi, Kåre Berge, Diana Edelman, Hadi Ghantous, Anne Katrine Gudme, Philippe Guillaume, Russell Hobson, Steven W. Holloway, Francis Landy, Daniel Pioske, Ulrike Sals, Carla Sulzbach, Karolien Vermeulen, and Carey Walsh.

Memory and Covenant Barat Ellman 2013-10-01 *Memory and Covenant* applies new insights into the meaning and function of social memory to analyze the two major "religions" of the Pentateuch (D and P) and their relationship to one another. Ellman shows that for the deuteronomic tradition, memory is an epistemological and pedagogical means for keeping Israel faithful to its God and God's commandments, even when Israelites are far from the temple and its worship. The pre-exilic priestly tradition, however, understands that the covenant depends on God's memory, which must be aroused by the sensory stimuli of the temple cult.

East of Eden John Steinbeck 2002-02-05 A masterpiece of Biblical scope, and the magnum opus of one of America's most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called *East of Eden* "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, *East of Eden* is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah's Book Club back, *East of Eden* has remained vitally present in American culture for over half a century.

Memories of Eden Violette Shamash 2016-03-15 According to legend, the Garden of Eden was located in Iraq, and for millennia, Jews resided peacefully in metropolitan Baghdad. *Memories of Eden: A Journey Through Jewish Baghdad* reconstructs the last years of the oldest Jewish Diaspora community in the world through the recollections of Violette Shamash, a Jewish woman who was born in Baghdad in 1912, sent to her daughter Mira Rocca and son-in-law, the British journalist Tony Rocca. The result is a deeply textured memoir—an intimate portrait of an individual life, yet revealing of the complex dynamics of the Middle East in the twentieth century. Toward the end of her long life, Violette Shamash began writing letters, notes, and essays and sending them to the Roccas. The resulting book begins near the end of Ottoman rule and runs through the British Mandate, the emergence of an independent Iraq, and the start of dictatorial government. Shamash clearly loved the world in which she grew up but is altogether honest in her depiction of the transformation of attitudes toward Baghdad's Jewish population. Shamash's world is finally shattered by the Farhud, the name given to the massacre of hundreds of Iraqi Jews over three days in 1941. An event that has received very slight historical coverage, the Farhud is further described and placed in context in a concluding essay by Tony Rocca.
