Graphic Ink Frank Quitely 2014-06-24 Frank Quitely's amazing, finely detailed artwork has been gracing the pages of DC Comics since he began illustrating stories in THE BIG BOOK series, from DC's Paradox Press imprint, in the mid-90's. Quitely quickly earned a name for himself illustrating fellow Scotsman Grant Morrison's FLEX MENTALLO, JLA EARTH 2, as well as Neil Gaiman's SANDMAN: ENDLESS NIGHTS. Graphic Ink: The DC Comics Art of Frank Quitely collects all of Quitely's BIG BOOK stories, his ALL STAR SUPERMAN and BATMAN & ROBIN: REBORN covers and much, much more! Blood-Kissed Sky J. A. London 2012-12-26 The second book in a romantic and drama-packed trilogy perfect for fans of Rachel Vincent, Julie Kagawa, and Alyson Noel. Lusciously romantic and full of action-packed drama, readers will be swept away by this thrilling novel. Dawn Montgomery knows that monsters really do come out at night—after all, they are her job. It's just after the thirty-year war between vampires and humans, and as an ambassador between the two sides (a role she inherited when her parents were killed), Dawn quickly learns that balancing schoolwork, teen life, and the requests of Lord Valentine, the most frightening vampire in the region, isn't easy. There's nowhere left to hide. I thought vampires were our enemies—they controlled our lives, isolated our cities, and demanded our blood—until I met Victor. With Victor taking over as the new Lord Valentine, things were supposed to get better. Instead, they're worse than ever. Day Walkers, a new breed of vampires who can walk in the sun, are terrorizing the city. Blood supplies are low, and if Victor's vampires don't get enough, they will become infected with the Thirst—a disease that will turn them into mindless killers. To stop it, I must journey across the desolate wasteland to the very place where the sickness began. I can only hope that the answers that await me are enough to save us all...before it's too late.

Crap CVs Jenny Crompton 2014-10-09 Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

High Tide Jude Deveraux 2012-12-11 Fiona is the creator of fashion doll sensation Kimberley, and is quite satisfied with her career-focused life. Yet when her boss informs her that she must win over a new account by going camping with the creator of a hit children's TV show, she is extremely reluctant. Nevertheless, she goes to Florida to meet Roy and his Guide Ace Montgomery. When Roy is found dead with Fiona holding the bloody knife, she becomes the prime suspect - though she has no recollection of what happened. Things get worse when she learns that Roy, until now a stranger to her, left her all the proceeds from his new TV show, giving her a strong motive for murder. Suddenly, she and Ace find themselves on the run, and being condemned by the press for murder. They must prove their innocence by discovering the true motive and murderer of Roy. Fiona and Ace figure out they are linked through her father, and it is then that Fiona learns the secrets of her family's past, turning her world upside down.

Maritime Informatics Mikael Lind 2021-05-17 Shipping is the world's oldest sharing economy and is conducted in a self-organizing manner. Shipping is capital, energy, and information intensive, and with the growing impact of digitalization and climate change, there is a need to rethink the management and operations of this critical global industry - assisted in no small way by maritime informatics. Building upon the recently published inaugural book Maritime Informatics by Springer, this book will address some of the most recent practical developments and experiences, particularly from a global perspective. The focus of the book is to address contemporary movements to tackle global concerns and to complement Maritime Informatics.

Vermeer Walter A. Liedtke 2012-03-01 Johannes Vermeer (16321675) has been one of the most widely admired European painters since his so-called rediscovery in the second half of the nineteenth century. Until quite recently, the Romantic roots of writing on the Sphinx of Delft have encouraged the image of him as an isolated genius; the artists private life and religion, his supposed use of a camera obscura, and the fact that his teacher has not been identified have all contributed to an air of mystery. As this new monograph demonstrates, Vermeers life is actually well documented and his work may be more appropriately understood by placing the painter in the context of the Delft school as a whole and of Delft society. The fact that one local patron acquired about twenty pictures by the artist (only thirty-six are known today) must have been significant for Vermeers subtleties of meaning and refinements of technique and style. In the end, however, the most historical approach to Vermeer still leaves us with a master whose rare sensibility and extraordinary powers of observation may be described but not explained.

Messiah Keith Ferrario 2002-02-01 The terror began one autumn night when Jack Railey's young daughter Sarah, did not return home. Was it kidnapping, brainwashing, or worse? Suddenly Jack is caught up in a harrowing scenario of betrayal, terror, and death, when he learns she has joined a cult. Their leader, Kahir, is a man some call kind, others call evil-some say he protects children, others say he destroys them. Jack is asked to join a small band of parents led by a man named Anthony Bane-their aim, to regain their children from the clutches of this Messiah. Agreeing to meet with these strangers for his wife's sake and his own curiosity, Jack soon finds that they had their own secrets-secrets that lead to dangerous consequences. After seeing things thought impossible, Jack finally understands that Kahir possesses powers of dangerous proportion and deadly force. Anyone opposing him would meet a grim fate-a fate pulled from their deepest fears. If Jack Railey wants his daughter back, he'll have to fight a battle unlike any other he has ever fought before. To win he must release his own power-he must face his dark side-he must learn the secrets of the Messiah.

The Big Book of Farm Tractors Robert N. Pripps 2001 The Big Book of Farm Tractors is the first large-format volume to chronicle the entire timeline of American farm tractors, from the steam power of the 1850s to the current offerings from New Holland, AGCO, John Deere, Caterpillar, and more. Detailed descriptions of tractors especially significant to the period, short essays on events defining the times, personal vignettes, collectibles, sales memorabilia, ads from old farm magazines, and old black & white photos of farm scenes make this a complete look at one of America's greatest innovations. Whether you're someone who has farmed, or someone simply with a love of the land, this book will give you a new perspective on the enormous influence of the tractor upon the American farm and culture.

Computer and Computing Technologies in Agriculture IV Daoliang Li 2011-02-03 This book constitutes Part III of the refereed four-volume post-conference proceedings of the 4th IFIP TC 12 International Conference on Computer and Computing Technologies in Agriculture, CCTA 2010, held in Nanchang, China, in October 2010. The 352 revised papers presented were carefully selected from numerous submissions. They cover a wide range of interesting theories and applications of information technology in agriculture, including simulation models and decision-support systems for agricultural production, agricultural product quality testing, traceability and e-commerce technology, the application of information and communication technology in agriculture, and universal information service technology and service systems development in rural areas.

Random Processes for Engineers Bruce Hajek 2015-03-12 This engaging introduction to random processes provides students with the critical tools needed to design and evaluate engineering systems that must operate reliably in uncertain environments. A brief review of probability theory and real analysis of deterministic functions sets the stage for understanding random processes, whilst the underlying measure theoretic notions are explained in an intuitive, straightforward style. Students will learn to manage the complexity of randomness through the use of simple classes of random processes, statistical means and correlations, asymptotic analysis, sampling, and effective algorithms. Key topics covered include: • Calculus of random processes in linear systems • Kalman and Wiener filtering • Hidden Markov models for statistical inference • The estimation maximization (EM) algorithm • An introduction to martingales and concentration inequalities. Understanding of the key concepts is reinforced through over 100 worked examples and 300 thoroughly tested homework problems (half of which are solved in detail at the end of the book).

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Theological Ethics and Global Dynamics William Schweiker 2008-04-15 The nature of ethics has been the subject of much controversy and argument in recent decades. Theological Ethics and Global Dynamics tackles these various debates, offering a wide-ranging, comprehensive, and provocative statement of the nature of theological ethics in global times. Offers an accessible, lively, and provocative statement of the nature of moral philosophy and theological ethics in contemporary times. Tackles various perspectives on debates about distinctly Christian ethics. Argues that we need to reframe the arena in which moral questions are asked. Engages a range of positions, exploring distinctively modern issues such as moral and cultural relativism, globalization, problems of consumption and violence, and religious pluralism. Addresses the complexity of certain ethical decisions, which are difficult and far from clear-cut, and yet presents an ethical understanding which is both humane and deeply religious.

Suriname International Monetary Fund 1997-08-13 This paper reviews economic developments in Suriname during 1994–96. In 1995, there was a major turnaround in Suriname's economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the 1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.

The Rural Life Verlyn Klinkenborg 2007-09-03 The former member of the New York Times editorial board offers a collection of essays that illuminate the beauty of the American landscape. With an eloquence unmatched by any other living writer, Verlyn Klinkenborg observes the juncture at which our lives and the natural world intersect. His yearlong meditation on the rigors and wonders of country life—encompassing memories of his family's Iowa homestead, time spent in the wide-open spaces of the American West, and his experiences on the small farm in upstate New York where he lives with his wife—abounds with various pleasures for the readers as it indelibly records and elaborates the everyday beauty of the world we inhabit. A New York Times Notable Book of the Year A Book Sense 76 Pick "Captivating, subtle, and splendid Klinkenborg really is a Thoreau for today Nonfiction storytelling at its highest: unflaggingly lovely, with scope, profundity, and power achieved through a mastering of the delicate." —Kirkus Reviews "In a voice reminiscent of E. B. White, Klinkenborg paints a picture of a fading world in colors that are solid and authentic. His joy is evident throughout." —Los Angeles Times "Arresting, even profound, forcing us to look at the world in a new way." —Chicago Tribune
