Hare and the Easter Eggs Alison Uttley 2000 Little Grey Rabbit is one of the classic gems of children's literature. The series is being relaunched to tie in with a classic television adaptation, and will delight children as much today as when it was first published seventy years ago. Little Grey Rabbit lives with Squirrel and Hare in a little house on the edge of a wood. It's March, and Hare is feeling as mad as only a March Hare can feel. So off he dashes into the village to see what he can find. There are untold delights -- jars of sweets, dolls, and wooden horses, but best of all, eggs made of chocolate with sugar flowers and ribbons tied round them. Hare decides to surprise his friends on Easter morning with these wonderful things When he does, his cleverness is greatly admired -- but then Hare has always known just how clever he is AGE 4-8

The Unfeathered Bird Katrina van Grouw 2013-01-29 There is more to a bird than simply feathers. And just because birds evolved from a single flying ancestor doesn't mean they are structurally all the same. With over 385 stunning drawings depicting 200 species, The Unfeathered Bird is a richly illustrated book on bird anatomy that offers refreshingly original insights into what goes on beneath the feathered surface. Each exquisite drawing is made from an actual specimen and reproduced in sumptuous large format. The birds are shown in lifelike positions and engaged in behavior typical of the species: an underwater view of the skeleton of a swimming loon, the musculature of a porpoising penguin, and an unfeathered sparrowhawk plucking its prey. Jargon-free and easily accessible to any reader, the lively text relates birds' anatomy to their lifestyle and evolution, examining such questions as why penguins are bigger than auks, whether harrier hawks really have double-jointed legs, and the difference between wing claws and wing spurs. A landmark in popular bird books, The Unfeathered Bird is a must for anyone who appreciates birds or bird art. A unique book that bridges art, science, and history Over 385 beautiful drawings, artistically arranged in a sumptuous large-format book Accessible, jargon-free text--the only book on bird anatomy aimed at the general reader Drawings and text all based on actual bird specimens Includes most anatomically distinct bird groups Many species never illustrated before

Diary of a Young Naturalist Dara McAnulty 2021-06-08 A BuzzFeed "Best Book of June 2021" From sixteen-year-old Dara McAnulty, a globally renowned figure in the youth climate activist movement, comes a memoir about loving the natural world and fighting to save it. Diary of a Young Naturalist chronicles the turning of a year in Dara's Northern Ireland home patch. Beginning in spring?when "the sparrows dig the moss from the guttering and the air is as puffed out as the robin's chest?these diary entries about his connection to wildlife and the way he sees the world are vivid, evocative, and moving. As well as Dara's intense connection to the natural world, Diary of a Young Naturalist captures his perspective as a teenager juggling exams, friendships, and a life of campaigning. We see his close-knit family, the disruptions of moving and changing schools, and the complexities of living with autism. "In writing this book," writes Dara, "I have experienced challenges but also felt incredible joy, wonder, curiosity and excitement. In sharing this journey my hope is that people of all generations will not only understand autism a little more but also appreciate a child's eye view on our delicate and changing biosphere." Winner of the Wainwright Prize for UK nature writing and already sold into more than a dozen territories, Diary of a Young Naturalist is a triumphant debut from an important new voice.

See the stunning bronze work of the ancient Chinese, an early irrigation machine, a set of antique acupuncture needles, the beautiful implements used for Chinese calligraphy. Learn why the First Emperor created the terra-cotta army, what kinds of goods were carried along the Silk Route, who invented paper, how a Chinese house was constructed, why tombs were filled with pottery figures, and what a civil servant's job entailed. Discover why emperors were known as Sons of Heaven, what kinds of weapons were used in early battles, why families worshiped their ancestors, how fishermen used bivas to catch fish, and much, much more. Discover the history of Imperial China - from the Great Wall to the days of the last emperor.

Wild Child Dara McAnulty 2021-07-08 Join brilliant young naturalist Dara McAnulty – winner of the 2020 Wainwright Prize for his book Diary of a Young Naturalist – on a nature walk and experience the joy of connecting with the natural world on your multi sensory journey. Wild Child: A Journey Through Nature is a beautiful gift book, illustrated in full colour by Barry Falls, and divided into five sections: looking out of the window, venturing out into the garden, walking in the woods, investigating heathland and wandering on the river bank. Dara pauses to tell you about each habitat and provides fantastic facts about the native birds, animals and plants you will find there – including wrens, blackbirds, butterflies, tadpoles, bluebells, bees, hen harriers, otters, dandelions, oak trees and many more. Each section contains a discovery section where you will have a closer look at natural phenomenon such as metamorphoses and migration, learn about categorization in the animal kingdom or become an expert on the collective nouns for birds. Each section finishes with an activity to do when you get home: plant wild flowers, make a bird feeder, try pond dipping, make a journey stick and build a terrarium. Dara ends the book with advice for young conservationists.

From the Centre Patricia Grace 2021-05-04 'We live by the sea, which hems and stitches the scalloped edges of the land.' Renowned writer Patricia Grace begins her remarkable memoirs beside her beloved Hongoeka Bay. It is the place she has returned to throughout her life, and fought for, one of many battles she has faced: 'It was when I first went to school that I found out that I was a Maori girl . . . I found that being different meant that I could be blamed . . .' As she shows, her experiences — good and bad, joyous and insightful — have fuelled what became a focus of her life: 'I had made up my mind that writing was something I would always do.'

Why Do Robins Have Red Breasts? Jo Stevens 2013-06-01 SPRINGWATCH UNSPRUNG brings together all the most-asked questions from the surprise hit BBC 2 TV spin-off of the same name. The heart of the book is what has

become the star of the TV programme - the viewers' anecdotes and questions. Many seemingly simple questions turn out to have complex answers, and some that seem difficult have a very simple explanation. All wildlife questions - be they trivial, idiosyncratic, baffling or strange - are covered, making this compilation equally as entertaining and enlightening as it is educational. Arranged by season, the book allows people to discover what is going on around them at any particular time of year. The book is peppered with elements from the Unsprung TV programme such as quizzes, wildlife suggestions for each season, and practical ideas of how to preserve wildlife in your garden. Each seasonal section comprises: * A short introduction to the season including what the wildlife-watcher might expect to see at this time of year, * Questions and answers drawing on the latest research, but translated by the Springwatch experts, * Quizzes - simple, mostly multiple choice questions e.g. who collects the most air miles? Spring sees the arrival of many of our migrant birds but which travels the furthest?, * What You Can Do - suggestions of seasonal activities including top tips on how to help wildlife at any given time of year, plus 3 or 4 things to make and do. e.g. helping your hogs - what and how to feed hedgehogs and what to do if you find an underweight one that should be hibernating. SPRINGWATCH UNSPRUNG will entertain, inform and empower anyone interested in British wildlife.

Yvain Chretien de Troyes 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

All Change Elizabeth Jane Howard 2016-04-26 Written twenty years after the publication of Casting Off, the final volume of the Cazalet Chronicles begins in 1956 when the death of the family matriarch brings the scattered members of the extended clan back together. The death of eighty-nine-year-old matriarch Kitty "the Duchy" Cazalet marks the end of an era—and the commencement of great change for the family. The long, difficult marriage of second son Edward to Villy has ended in divorce and Edward is contemplating wedlock with his longtime mistress, Diana. Hugh, the eldest son, wounded in the Great War and haunted by the death of his wife, Sybil, has finally found happiness with Jemima Leaf. Rupert, the youngest, who was missing-in-action during World War II, is now committed to rebuilding his relationship with his wife, Zoe. Rachel, who has spent a lifetime looking after others, has the chance to finally live for herself—even as she's faced with the loss of all she cherishes most. And Home Place, the beloved Sussex estate where the Cazalets have gathered for years, is now a beloved relic that, with its faded wallpaper and leaky roof, has aged along with its occupants, including faithful servants like Mrs. Cripps, Mr. Tonbridge, and former governess Miss Milliment, now steadfast companion to Villy. Elizabeth Jane Howard's critically acclaimed family saga comes to its conclusion as the Cazalets reflect on their past and begin the inexorable move forward.

Multibody Systems Approach to Vehicle Dynamics Michael Blundell 2004 Multibody Systems Approach to Vehicle Dynamics aims to bridge a gap between the subject of classical vehicle dynamics and the general-purpose computer-based discipline known as multibody systems analysis (MBS). The book begins by describing the emergence of MBS and providing an overview of its role in vehicle design and development. This is followed by separate chapters on the modeling, analysis, and post-processing capabilities of a typical simulation software; the modeling and analysis of the suspension system; tire force and moment generating characteristics and subsequent modeling of these in an MBS simulation; and the modeling and assembly of the rest of the vehicle, including the anti-roll bars and steering systems. The final two chapters deal with the simulation output and interpretation of results, and a review of the use of active systems to modify the dynamics in modern passenger cars. This book intended for a wide audience including not only undergraduate, postgraduate and research students working in this area, but also practicing engineers in industry who require a reference text dealing with the major relevant areas within the discipline. * Full of practical examples and applications * Uses industry standard ADAMS software based applications * Accompanied by downloadable ADAMS models and data sets available from the companion website that enable readers to explore the material in the book * Guides readers from modelling suspension movement through to full vehicle models able to perform handling manoeuvres

Fingers in the Sparkle Jar Chris Packham 2016-05-05 Voted the UK's Favourite Nature Book The memoir that inspired Chris Packham's BBC documentary, Asperger's and Me Every minute was magical, every single thing it did was fascinating and everything it didn't do was equally wondrous, and to be sat there, with a Kestrel, a real live Kestrel, my own real live Kestrel on my wrist! I felt like I'd climbed through a hole in heaven's fence. An introverted, unusual young boy, isolated by his obsessions and a loner at school, Chris Packham only felt at ease in the fields and woods around his suburban home. But when he stole a young Kestrel from its nest, he was about to embark on a friendship that would teach him what it meant to love, and that would change him forever. In his rich, lyrical and emotionally exposing memoir, Chris brings to life his childhood in the 70s, from his bedroom bursting with fox skulls, birds' eggs and sweaty jam jars, to his feral adventures. But pervading his story is the search for freedom, meaning and acceptance in a world that didn't understand him. Beautifully wrought, this coming-of-age memoir will be unlike any you've ever read.

Here on Earth Tim Flannery 2011-04-05 From the internationally acclaimed scientist, explorer, and conservationist comes an awe-inspiring account of earth's evolution. Beginning at the moment of creation with the Big Bang, Here on Earth explores the evolution of Earth from a galactic cloud of dust and gas to a planet with a metallic core and early signs of life within a billion years of being created. In a compelling narrative, Flannery describes the formation of the Earth's crust and atmosphere, as well as the transformation of the planet's oceans from toxic brews of metals (such as iron, copper, and lead) to life-sustaining bodies covering seventy percent of the planet's surface. Life, Flannery shows, first appeared in these oceans in the form of microscopic plants and bacteria, and these metals served as catalysts for the earliest biological processes known to exist. From this starting point, Flannery tells the fascinating story of the evolution of our own species, exploring several early human species—from the diminutive creatures (the famed hobbits) who lived in Africa around two million years ago to Homo erectus—before turning his attention to Homo sapiens. Drawing on Charles Darwin's and Alfred Russell Wallace's theories of evolution and Lovelock's Gaia hypothesis, Here on Earth is a dazzling account of life on our planet. "You'll discover why Tim Flannery's books

have made him the rock star of modern science.”—Jared Diamond, Pulitzer Prize–winning author of *Guns, Germs, and Steel*

The Man in the Bunker Rory Clements 2022-01-20 WHAT IF HITLER HAD SURVIVED? In the gripping new spy thriller from the Sunday Times bestselling author of *Hitler's Secret*, a Cambridge spy must find the truth behind Hitler's death. But exactly who is the man in the bunker? 'MASTER OF THE WARTIME SPY THRILLER' - FINANCIAL TIMES _____ Germany, late summer 1945 - The war is over but the country is in ruins. Millions of refugees and holocaust survivors strive to rebuild their lives in displaced persons camps. Millions of German soldiers and SS men are held captive in primitive conditions in open-air detention centres. Everywhere, civilians are desperate for food and shelter. No one admits to having voted Nazi, yet many are unrepentant. Adolf Hitler is said to have killed himself in his Berlin bunker. But no body was found - and many people believe he is alive. Newspapers are full of stories reporting sightings and theories. Even Stalin, whose own troops captured the bunker, has told President Truman he believes the former Führer is not dead. Day by day, American and British intelligence officers subject senior members of the Nazi regime to gruelling interrogation in their quest for their truth. Enter Tom Wilde - the Cambridge professor and spy sent in to find out the truth... Dramatic, intelligent, and brilliantly compelling, *THE MAN IN THE BUNKER* is Rory's best WWII thriller yet - perfect for readers of Robert Harris, C J Sansom and Joseph Kanon.

The Big, Bad Book of Beasts Michael Largo 2013-04-16 The world's wildest collection of animal knowledge and lore! Lions, and tigers, and bears . . . and dinosaurs, dragons, and monsters. Oh my! For hundreds of years, the most popular books in the Western world next to the Bible were "bestiaries," fanciful encyclopedias collecting all of human knowledge and mythology about the animal kingdom. In these pages, eagles and elephants lived next to griffins and sea monsters. Now, in *The Big, Bad Book of Beasts*, award-winning author Michael Largo has updated the medieval bestsellers for the twenty-first century, illuminating little-known facts, astonishing secrets, and bizarre superstitions about the beasts that inhabit our world—and haunt our imaginations. You'll learn about the biggest bug ever, the smallest animal in the world, and the real creatures that inspired the fabled unicorns. You'll discover how birds learned to fly, why cats rub against your legs, and a thousand other facts that will make you look at nature in a wonderfully new way. Did you know? The fastest animal in the world is the peregrine falcon, which reaches speeds of over 200 miles per hour. Circus ringmaster P.T. Barnum fooled many when he displayed a "mermaid" carcass that was later proved to be monkey bones sewed together with the body of a fish. Discovered in a remote volcanic crater in New Guinea, the Bosavi wolly rat grows to the size of a cat. President Andrew Jackson bought an African gray parrot to keep his wife company. The bird outlived them both and was removed from Jackson's funeral for cussing in both English and Spanish. A to Z: From Aardvark to Zooplankton! For all ages! Includes 289 illustrations!

Howard Huang's Urban Girls Howard Huang 2010 *Sexy in the city:* Howard Huang's anime-inspired glamour girls When photographer Howard Huang began shopping his fashion book around New York in 2002 he had no idea he was about to become the master of urban photography. Back then, Huang, originating from Taiwan, thought "urban girls" were just women who lived in the city, explaining, "English is my second language; I was still learning."

Nonetheless, when the editor of *Black Men* magazine asked if he knew how to shoot sexy women he said, "Sure!" and set about staging the magazine's voluptuous singers, models, and actresses in fantasies inspired by his love of comic books and anime. His composite photos feature exotic locales, lush interiors, or the neon-washed nighttime streets of Manhattan. His shapely heroines, including singer Jacki-O, actress Vida Guerra, and reality TV stars Hoopz, Deelishis, and Risky Jones, escape on sleek motorcycles; rob banks with guns drawn and Halliburton cases spilling money; brandish swords like Japanese assassins; conjure fire; hunt big game, and generally kick ass while displaying their own generous posteriors in photos reminiscent of video games. "The trick is to rework an image to enhance my vision, without drawing attention to cheesy Photoshop special effects," says Huang, who studied under advertising photography master Michel Tcherevkoff. The result is a unique marriage of the new pictorialism with classic glamour photography, and a look at the little known niche market of African-American and Latina bikini models, collectively known as "urban girls." Text in English, French, and German

The Unlikely Thru-Hiker Derick Lugo 2019 Derick Lugo had never been hiking. He didn't even know if he liked being outside all that much. He certainly couldn't imagine going more than a day without manicuring his goatee. But with a job overseas cut short and no immediate plans, this fixture of the greater New York comedy circuit began to think about what he might do with months of free time and no commitments. He had heard of the Appalachian Trail and knew of its potential for danger and adventure, but he had never seriously considered attempting to hike all 2,192 miles of it. Then again, what could go wrong for a young black man from the city trekking solo through the East Coast backwoods? *The Unlikely Thru-Hiker* is the story of how an unknowing ambassador of one of the AT's least common demographics, unfamiliar with both the outdoors and thru-hiking culture, sets off with an extremely overweight pack and a willfully can-do attitude to conquer the infamous trail. What follows are eye-opening lessons on preparation, humility, race relations, and nature's wild unpredictability. But this isn't a hard-nosed memoir of discouragement or intolerance. What sets Lugo apart from the typical walk in the woods is his refusal to let any challenge squash his inner Pollyanna. Through it all, he perseveres with humor, tenacity, and an unshakeable commitment to grooming--earning him the trail name "Mr. Fabulous"--that sees him from Springer Mountain in Georgia to Katahdin in Maine.

introduction to the countryside.

It's a Wonderful Woof Spencer Quinn 2021-10-19 INSTANT USA TODAY BESTSELLER Spencer Quinn's It's a Wonderful Woof presents a holiday adventure for Chet the dog, "the most lovable narrator in crime fiction" (Boston Globe), and his human partner, PI Bernie Little. Holiday time in the Valley, and in the holiday spirit—despite the dismal shape of the finances at the Little Detective Agency—Bernie refers a potential client to Victor Klovsky, a fellow private eye. It's also true that the case—promising lots of online research but little action—doesn't appeal to Bernie, while it seems perfect for Victor, who is not cut out for rough stuff. But Victor disappears in a rough-stuff way, and when he doesn't show up at his mom's to light the Hanukkah candles, she hires Chet and Bernie to find him. They soon discover that Victor's client has also vanished. The trail leads to the ruins of a mission called Nuestra Señora de los Saguaros, dating back to the earliest Spanish explorers. Some very dangerous people are interested in the old mission. Does some dusty archive hold the secret of a previously unknown art treasure, possibly buried for centuries? What does the Flight into Egypt—when Mary, Joseph and the baby Jesus fled Herod—have to do with saguaros, the Sonoran desert cactus? No one is better than Chet at nosing out buried secrets, but before he can, he and Bernie are forced to take flight themselves, chased through a Christmas Eve blizzard by a murderous foe who loves art all too much. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
