Encyclopedia of Race and Crime Helen Taylor Greene 2009-04-14 "The organization of the reader's guide—especially the groupings of landmark cases, race riots, and criminology theories—is impressive ... Other related titles lack the breadth, detail, and accessibility of this work ... Recommended for all libraries; essential for comprehensive social studies collections." —Library Journal As seen almost daily on local and national news, race historically and presently figures prominently in crime and justice reporting within the United States, in the areas of hate crimes, racial profiling, sentencing disparities, wrongful convictions, felon disenfranchisement, political prisoners, juveniles and the death penalty, and culturally specific delinquency prevention programs. The Encyclopedia of Race and Crime covers issues in both historical and contemporary context, with information on race and ethnicity and their impact on crime and the administration of justice. These two volumes offer a greater appreciation for the similar historical experiences of varied racial and ethnic groups and illustrate how race and ethnicity has mattered and continues to matter in the administration of American criminal justice. Key Features Covers a number of broad thematic areas: basic concepts and theories of criminal justice; the police, courts, and corrections; juvenile justice; public policy; the media; organizations; specific groups and populations; and specific cases and biographies Addresses such topics as gender, hate/bias crimes, immigrant experiences, international and cross-cultural issues, race and gangs, and race and law, Presents experiences of all major racial and ethnic groups in the U.S., including Asians, Blacks, Latinos, Native Americans, and Ethnic Whites, as well as religious minorities, such as Muslims Includes coverage of recent incidents like the alleged rape of a black female North Carolina Central University student by white male members of the Duke University Lacrosse Team; the Jena 6 incident; the Tulia, Texas drug arrests; the Rodney King beating; the O. J. Simpson trials in the 1990s; and more recent racial profiling incidents Two appendices provide information on locating and interpreting statistical data on race and crime, as well as detailed instructions on how to access statistical data on the web for such specific areas as arrests, drugs, gang

membership, hate crimes, homicide trends, juvenile justice, prison populations, racial profiling, the death penalty, and victimization Because the topic of race and crime is of wide interest and relevance, entries in this Encyclopedia are written in an accessible style to appeal to a broad audience, making it a welcome addition to academic and public libraries alike.

Child Protective Services Diane DePanfilis 2003 From the Preface: This manual, *Child Protective Services: A Guide for Caseworkers*, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in *A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice*. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based-including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

Representing Yourself in Federal Court United States District Court 2017-08-04 This Handbook is designed to help people dealing with civil lawsuits in federal court without legal representation. Proceeding without a lawyer is called proceeding "pro se," a Latin phrase meaning "for oneself," or sometimes "in propria persona," meaning "in his or her own person." Representing yourself in a lawsuit can be complicated, time consuming, and costly. Failing to follow court procedures can mean losing your case. For these reasons, you are urged to work with a lawyer if possible. Chapter 2 gives suggestions on finding a lawyer. Do not rely entirely on this Handbook. This Handbook provides a summary of civil lawsuit procedures, but it may not cover all procedures that may apply in your case. It also does not teach you about the laws that will control your case. Make sure you read the applicable federal and local court rules and do your own research at a law library or online to understand your case. The United States District Court for the Northern District of California has Clerk's Offices in the San Francisco, San Jose and Oakland courthouses. Clerk's Office staff can answer general questions, but they cannot give you any legal advice. For example, they cannot help you decide what to do in your lawsuit, tell you what the law means, or even advise you when documents are due. There are Legal Help Centers in the San Francisco, Oakland and San Jose courthouses where you can get free help with your lawsuit from an attorney who can help you prepare documents and give limited legal advice. This attorney will not be your lawyer and you will still be representing yourself. See Chapter 2 for more details.

Maintaining the Public Trust Federal Judicial Center 2020-09-24 New law clerks: welcome to the federal court system. Career clerks: thank you for your continued service. During your clerkship, you will provide valuable assistance as your judge resolves disputes that are of great importance to the parties, and often to the public. The parties and the public accept judges' rulings because they trust the system to be fair and impartial. Maintaining this trust is crucial to the continued success of our courts. That's why, although you have many responsibilities that demand your attention, you must never lose sight of your ethical obligations. You need to become familiar with the Code of Conduct for Judicial Employees, which has five canons. In brief, the canons provide that you should - uphold the independence and integrity of the judiciary and of your office - avoid impropriety and the appearance of impropriety in all activities - adhere to appropriate standards in performing your duties; - avoid conflict with official duties and the appearance of impropriety in all outside activities - refrain from inappropriate political activities Scrupulously follow these canons and the other rules that govern your conduct. Do not assume that good intentions are enough. It is not enough to simply learn and follow the Code of Conduct and other related ethics rules, however. You also need to familiarize yourself with and follow your judge's ethical guidelines. These guidelines may differ from chambers to chambers. Your judge may impose restrictions that go beyond the Code. Although many of your obligations are the same as those of other federal judicial employees, certain restrictions are more stringent because of your special position in relation to the judge.

Washington State Notary Public Guide Washington State Department 2019-04-06 The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.

Gravel Roads Ken Skorseth 2000 The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Government to Government Susan Johnson 2000 State and tribal governments have common purposes: to use public resources effectively and efficiently, to provide comprehensive services to their respective citizens, and to protect the natural environment, all while sustaining healthy economies. Neighboring governments, as a practical matter, share many aspects of their respective economic and social systems, and are connected through political and legal relationships. Although these mutual interests have created jurisdictional disputes that historically have been solved through litigation, there is an increasing need for cooperation. Public resources are an issue for all governments, and state and tribes can benefit by collaborating and pooling resources to the fullest extent possible.
